

ABDULSAMAD AJAO

Senior Frontend- UI/UX Engineer

Lagos, Nigeria | +234 706 869 2728 | ajaoabdulsamad2000@gmail.com

[GitHub](#) | [LinkedIn](#) | [Technical Articles](#)

PROFESSIONAL SUMMARY

Results-driven Senior Frontend Engineer with 4+ years of experience delivering high-performance, accessible web applications. Skilled in React, TypeScript, and modern frontend architectures with a strong focus on UX, code quality, and WCAG compliance.

An active open-source contributor with published Figma plugin serving the design community. Demonstrated ability to lead technical initiatives, mentor junior developers, and collaborate effectively with cross-functional teams to deliver scalable solutions within demanding timelines.

TECHNICAL EXPERTISE

Core Technologies: [React.js](#), React Native, Vue, TypeScript, Next.js, JavaScript (ES6+), HTML5, CSS3

Styling & UI: CSS, SCSS, TailwindCSS, Responsive Design, Progressive Web Apps

State Management & Real-time: Redux, Socket.IO, REST APIs, GraphQL, MobX

Testing & Quality: Jest, Cypress, Test-Driven Development

Payment Integration: Stripe, PayPal, Paystack, Blockchain/Crypto Payment Gateways

Emerging Technologies: Ethers.js, Three.js, Web3, Blockchain Technology

Tools & Platforms: Git/GitHub, AWS, Firebase, Webflow, WordPress

Development Practices: Agile/Scrum, Code Review, CI/CD, Performance Optimization

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer | Foodcourt, Lagos, Nigeria

April 2022 – Present

Leading frontend development initiatives for a rapidly growing food-tech platform, optimizing kitchen operations and customer experience through innovative web solutions.

- Spearheaded comprehensive refactoring of legacy codebase, improving application performance by implementing modern React patterns and TypeScript, resulting in 40% faster load times

- Architected and delivered real-time order management system using Socket.IO, enabling instantaneous kitchen-to-customer communication and reducing order processing time
- Integrated Paystack payment gateway with robust error handling and transaction monitoring, achieving 99.8% payment success rate
- Collaborated with product managers, designers, and backend engineers to conceptualize and launch 12+ features that enhanced operational efficiency and user satisfaction
- Established frontend testing protocols using Jest, increasing code coverage from 45% to 85%
- Mentored 3 junior developers on React best practices, TypeScript implementation, and modern development workflows

Key Technologies: React.js, TypeScript, TailwindCSS, Socket.IO, Paystack, REST APIs

Frontend Engineer | Zerotech Agency Ltd, Remote

January 2023 – April 2024

Delivered cutting-edge web solutions for diverse clients, specializing in emerging technologies including blockchain integration and AI-powered features.

- Engineered responsive, performant web applications adhering to WCAG 2.1 accessibility standards while maintaining exceptional performance metrics (Lighthouse scores 90+)
- Researched and implemented blockchain payment solutions using Ethers.js, enabling crypto transactions for international clients and expanding payment options by 35%
- Developed and integrated multiple payment gateways (PayPal, Stripe, crypto wallets) with comprehensive security measures and transaction validation
- Conducted technical feasibility studies on emerging technologies (AI assistants, Web3 integrations) and presented recommendations to stakeholders
- Optimized web layouts and component architecture, reducing bundle sizes by 30% through code splitting and lazy loading strategies
- Implemented Micro frontend systems

Key Technologies: React.js, Jest, TailwindCSS, Ethers.js, PayPal, Stripe, Blockchain Payment Gateways

Co-Founder | Streetfair

April 2024 – April 2025

Founded and led technical development for an innovative e-commerce platform connecting local vendors with customers.

- Architected full-stack web and mobile applications using React.js and React Native, supporting cross-platform deployment
- Managed complete project lifecycle from requirements gathering to deployment, consistently delivering within budget and timeline constraints
- Led technical design reviews, establishing coding standards and architectural patterns adopted across the development team

- Heavily influenced design interface enforcing WCAG principles for increased accessibility
- Integrated Paystack payment system, WordPress CMS for content management, and AWS for scalable cloud infrastructure
- Implemented real-time features using Socket.IO for instant notifications and live updates

Key Technologies: React Native, React.js, TailwindCSS, Paystack, WordPress, AWS, Socket.IO

Frontend Engineer | SoundTurf, Austin, TX (Remote)

October 2024 – February 2025

Contributed to music streaming platform development, focusing on intuitive UI/UX and modern web technologies.

- Collaborated with design team to implement pixel-perfect, responsive interfaces that increased user engagement by 25%
- Developed interactive features using React.js and Next.js, optimizing for SEO and performance
- Implemented Firebase authentication and real-time database functionality for seamless user experience
- Utilized TailwindCSS to create consistent, maintainable styling system across application

Key Technologies: React.js, Next.js, TailwindCSS, Firebase

Junior UI/UX Developer | Travel Bay, Lagos, Nigeria

April 2021 – April 2022

Contributed to travel booking platform development with focus on performance optimization and user experience enhancement.

- Implemented Progressive Web App features including offline capabilities and push notifications, improving user retention by 30%
- Collaborated with UX designers to create intuitive interfaces that reduced booking abandonment rate by 20%
- Developed reusable React components integrated with REST APIs and GraphQL for efficient data fetching
- Utilized TypeScript to improve code quality and reduce runtime errors by 45%
- Implemented Socket.IO for real-time booking updates and availability notifications

Key Technologies: React.js, TypeScript, TailwindCSS, WordPress, Socket.IO, AWS, REST APIs, GraphQL

OPEN SOURCE CONTRIBUTIONS & PROJECTS

Lingo - Figma Plugin | [View Plugin](#)

Developed and published open-source Figma plugin serving the design community, demonstrating ability to identify user needs and deliver practical solutions.

- Built using TypeScript and Figma Plugin API
- Active maintenance and community support
- Demonstrates proficiency in plugin architecture and API integration

Technical Writing | [Dev.to Profile](#)

Regular contributor of technical articles covering frontend development best practices, React patterns, and emerging web technologies, demonstrating thought leadership and commitment to knowledge sharing within the developer community.

IMPACT MADE THROUGH MY OPEN WORK.

Through **Lingo – Figma Plugin**, I've empowered designers and teams globally by simplifying repetitive design tasks and improving collaboration within the Figma ecosystem. The plugin has strengthened the open-source design tooling community, making custom design systems more accessible and promoting faster, more consistent design iterations. Its positive adoption highlights its real-world impact and value to users.

My **technical writing on Dev.to** has educated and inspired developers by sharing insights on frontend best practices, React patterns, and emerging web technologies. These articles have bridged knowledge gaps, encouraged community dialogue, and supported developers in building cleaner, scalable applications while fostering a culture of learning and innovation.

By delivering impactful and scalable frontend solutions, my code has driven business growth, delivering immeasurable economic value and has played a part in innovation in Nigeria and Africa as a whole

EDUCATION

Bachelor of Science in Architecture
Federal University of Ilorin, Ilorin, Nigeria

CORE COMPETENCIES

- **Leadership:** Proven ability to lead technical initiatives and mentor development teams
 - **Collaboration:** Strong track record working with cross-functional teams across multiple time zones
 - **Attention to Detail:** Meticulous approach to code quality, testing, and documentation
 - **Efficiency:** Consistent delivery of high-quality solutions within tight deadlines
 - **Adaptability:** Quick learner with demonstrated ability to master new technologies and frameworks
 - **Problem-Solving:** Analytical approach to identifying and resolving complex technical challenges
-
